the realisation that most mental disorders have their onset before the age of twenty five has focused psychiatric research towards adolescent mental health this book provides vivid examples of school mental health innovations from eighteen countries addressing mental health promotion and interventions these initiatives and innovations enable readers from different regions and

disciplines to apply strategies to help students achieve and maintain mental health enhance their learning outcomes and access services worldwide through case studies of existing programs such as the integrated system of care approach in the usa the school based pathway to care framework in canada the therapeutic school consultation approach in turkey and the reach model in singapore it highlights challenges and solutions to building initiatives even when resources are scarce this will be essential reading for educators health providers policy makers researchers and other stakeholders engaged in helping students achieve mental health and enhance their learning outcomes

this book reveals how school memories offer not only a tool for accessing the school of the past but also a key to understanding what people today know or think they know about the school of the past it describes in fact how historians work does not purely and simply consist in exploring school as it really was but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level further it investigates the extent to which what people know reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with the book includes fifteen peer reviewed contributions that were presented and discussed during the international symposium school memories new trends in historical research into education heuristic perspectives and methodological issues seville 22 23 september 2015

educational researchers have long been concerned about the factors that influence the patterns of attendance in higher education and the extent to which higher education has been accessible to all students regardless of their socioeconomic status extensive research has indicated that a variety of class related factors such as cultural capital social capital and economic capital exert remarkable impacts on the amount and type of education that one receives drawing on cultural capital theory this study aims at analyzing how students college choice process varies by social class in china by exploring different cultural and financial factors that influence different stages of students college choice process this study hopes to contribute to identifying the most appropriate policies and practices for raising the representation of students from the lowest social class among college participants

helping families of youth with school attendance problems consists of 7 chapters that guide the reader through the assessment consultation and intervention processes for various cases of school attendance problems initial material provides an overview and focuses on a rapid assessment and consultation process the heart of the book is centered on extensive and detailed recommendations to guide clinicians and school officials through an efficient intervention process to reduce a child s school absenteeism and related behavior problems

loren barritt is professor of education at the university of michigan he spent a year in a dutch elementary school studying the dutch approach to teaching and observing how teachers make decisions in both the classroom situation and in staff meetings and analysing the effectiveness of these decisions for the children in contrast to the us system the emphasis in dutch elementary

schools is not only on measurable learning achievements but also on everyday events as these create the structures in which the child lives
